## Maths

This week the children have been learning to find one more.

They have been counting out various objects and then adding one more and find out the new total.

Practice at home by saying 'If I have 5 apples and I get one more how many will I have?'

We have also been practising writing our numbers.

## English

This week the children have been looking at what makes them sad and happy. They have been drawing pictures to show their answers.

We have also been looking at similarities and differences, especially amongst each other,

We looked at who had different hair colours, eye colours, who wears glasses and other differences.

## Other News

In phonics this week the children have learnt the sounds /g/ and /o/

Ask your child to identify these in their reading books. Play eye spy with items starting with these sounds.

There will be a home work task for the whole school during half term so look out for that in their book bags.

Please continue to read during the half term break and we shall see you back at school on Monday 31st November
