Why we share pupil information

We do not share information about our pupils with anyone without consent unless the law allows us to do so.

We share pupils' data with the Department for Education (DfE) on a statutory basis. This data sharing underpins school funding and educational attainment policy and monitoring.

We are required to share information about our pupils with our local authority (LA) and the Department for Education (DfE) under section 3 of The Education (Information About Individual Pupils) (England) Regulations 2013.

Data collection requirements:

To find out more about the data collection requirements placed on us by the Department for Education (for example; via the school census) go to <https://www.gov.uk/education/data-collection-and-censuses-for-schools>.

The National Pupil Database (NPD)

The NPD is owned and managed by the Department for Education and contains information about pupils in schools in England. It provides invaluable evidence on educational performance to inform independent research, as well as studies commissioned by the Department. It is held in electronic format for statistical purposes. This information is securely collected from a range of sources including schools, local authorities and awarding bodies.

We are required by law, to provide information about our pupils to the DfE as part of statutory data collections such as the school census and early years' census. Some of this information is then stored in the NPD. The law that allows this is the Education (Information About Individual Pupils) (England) Regulations 2013.

To find out more about the pupil information we share with the department, for the purpose of data collections, go to <https://www.gov.uk/education/data-collection-and-censuses-for-schools>.

To find out more about the NPD, go to <https://www.gov.uk/government/publications/national-pupil-database-user-guide-and-supporting-information>.

The department may share information about our pupils from the NPD with third parties who promote the education or well-being of children in England by:

- conducting research or analysis
- producing statistics
- providing information, advice or guidance

The DfE has robust processes in place to ensure the confidentiality of our data is maintained and there are stringent controls in place regarding access and use of the data. Decisions on whether DfE releases data to third parties are subject to a strict approval process and based on a detailed assessment of:

- who is requesting the data;
- the purpose for which it is required;
- the level and sensitivity of data requested; and
- the arrangements in place to store and handle the data.

To be granted access to pupil information, organisations must comply with strict terms and conditions covering the confidentiality and handling of the data, security arrangements and retention and use of the data.

Requesting access to your personal data

Under data protection legislation, parents and pupils have the right to request access to information about them that we hold ("Subject Access Request"). Where a child does not have the maturity to make their own requests for personal data, parents may do so on their behalf in a primary school setting. To make a request for your child's personal data, or be given access to your child's educational record, contact the school office at admin@parkgateinfants.herts.sch.uk although any written request for personal data will be treated as a Subject Access Request.

Subject to the section below, the legal timescales for the School to respond to a Subject Access Request is one calendar month. As the School has limited staff resources outside of term time, we encourage parents / pupils to submit Subject Access Requests during term time and to avoid sending a request during periods when the School is closed or is about to close for the holidays where possible. This will assist us in responding to your request as promptly as possible. For further information about how we handle Subject Access Requests, please see our Data Protection Policy.

Parents of pupils who attend a maintained school have a separate statutory right to access their child's educational record. Upon receipt of a written request for a pupil's educational record, the School will respond to it within 15 school days. This is an independent legal right of parents which falls outside of the GDPR, therefore a pupil's consent is not required even

if a pupil is able to make their own decisions in relation to their personal data unless a court order is in place which states otherwise.

The term “parent” is widely defined in education law to include the natural or adoptive parents (regardless of whether parents are or were married, whether a father is named on a birth certificate or has parental responsibility for the pupil, with whom the pupil lives or whether the pupil has contact with that parent), and also includes non-parents who have parental responsibility for the pupil, or with whom the pupil lives. It is therefore possible for a pupil to have several “parents” for the purposes of education law.

You also have the right to:

- object to processing of personal data that is likely to cause, or is causing, damage or distress;
- prevent processing for the purpose of direct marketing;
- object to decisions being taken by automated means;
- in certain circumstances, have inaccurate personal data rectified, blocked, erased or destroyed; and
- claim compensation for damages caused by a breach of our data protection responsibilities.

If you have a concern about the way we are collecting or using your personal data, you should raise your concern with us in the first instance or directly to the Information Commissioner’s Office at <https://ico.org.uk/concerns/>
