Covid symptoms

Please ensure you do not send your children into school if your child (or anyone in your house) has any of the symptoms. The current symptoms are (you do not need all, only one):

- a **high temperature** – this means you feel hot to touch on your **chest** or back (you do not need to measure your temperature)
- a new, **continuous cough** – this means **coughing** a lot for more than an hour, or 3 or more **coughing** episodes in 24 hours (if you usually have a **cough**, it may be worse than usual)
- a loss or change to your sense of smell or taste – this means you've noticed you cannot smell or taste anything, or things smell or taste different to normal
